

AT&T Nonprofit Technology Award → AT&T supports improved Technology for

Nonprofit organization in Metro Detroit and across Michigan. AT&T's support will assist nonprofit organizations in helping communities and citizens in need through improved technology. February 25, 2008, AT&T announced support of 25 nonprofit organization in the metro Detroit area and around the state.

This contribution from AT&T is for more than \$450,000 in support of Michigan Nonprofit organizations to improve technology for youth, seniors, people with disabilities, minorities and other underserved communities.

One of recipients is the Korean American Community of Metro Detroit (KACMD). The KACMD received \$5,000 from AT&T for supporting technology upgrades to the existing website as well as the new and improved website, which will have more interactive contents in Korean and English and link to other Korean-American organizations. The new website will be a good information center for both new immigrants and the second generation Korean Americans.
